Pedro also blogs on a regular basis about education and research on TheEconomyOfMeaning.com

Title of presentation: The Psychology of Great Teaching

In his talk Pedro De Bruyckere will explore robust current ideas and contemporary findings from different psychological disciplines such as cognitive psychology, developmental psychology, social psychology, personality theory and systems theory after the replication crisis. You will gain new insights to enhance your teaching. The ultimate purpose is to deepen your knowledge of how students and young people develop and learn as individuals and how a greater understanding of human behaviour can make you a more effective teacher.
